1966 AMERICAN MOTORS SEAT, COLOR AND UPHOLSTERY SELECTOR CHARTS

for the

RAMBLER AMERICAN 220, 440 & ROGUE

RAMBLER CLASSIC 550, 770 & REBEL

AMBASSADOR 880, 990 & DPL... by American Motors

MARLIN... by American Motors

ONE

Turn to the appropriate selector chart for the desired model. These charts are underneath this page, and show the available seats, colors and upholsteries for each model. Leave this section open at the appropriate chart.

TWO

Select an exterior solid color or two-tone combination from those shown the chart as being available, using color chips on the opposite side of the book. Leave this section open at the selected color.

THREE

Select an available upholstery choice for the desired type of seat, exterior color and model by referring back to the selector chart. Each upholstery choice is assigned a trim number.

FOUR

Select an upholstery, using the swatches on the opposite side of the book. The swatches are identified by trim numbers and are arranged in numerical order.

After the color and upholstery selection is completed, return each section to its normal position.

American Motors...where quality is built in, not added on.

LUSTRE-GARD ACRYLIC ENAMEL

As an important product benefit, *all* exterior colors are formulated with Lustre-Gard Acrylic Enamel . . . a most advanced type of new-car finish. With these thermosetting acrylic enamels *three* wet-on-wet coats are used and the final finish is baked on for lasting beauty and durability. The more expensive acrylic enamels have advantages over other type enamels and lacquers, as follows:

1. Improved new-car appearance.
2. Improved gloss retention.
3. Improved hardness.
4. Greater resistance to marring and scratching.
5. Freedom from chalking.
6. Improved polishability without harming durability.
7. Improved color stability.
8. Easier paint repairs.
9. Improved appearance of used-cars in the future.
